   B. Motions for Board Approval:
      1. Motion 1:
         The Greater Valley Glen Council opposes adoption of the proposed Home-Sharing Ordinance (CFs 14-1635-S2, 14-1635-S3), as presently written and seeks changes before being finalized for Council consideration as follows:
         1.) Section 2. Eliminate the proposed 180 day cap on home share rental availabilities, and furthermore eliminate calendar restrictions entirely.
         2.) Section 3, 31 (2)(d). Request that eligibility requirements be removed for RSO's (Rent Stabilization bldgs.). Under the proposed ordinance RSO’s are not eligible for Home Sharing. (Comment: This is an unfair stipulation with prejudice against stakeholders unable to purchase an $800,000 plus home in Valley Glen or a high priced rental home. This would eliminate the low and middle income stakeholders and serve only the higher income market, in essence cutting out the stakeholders who need it the most. According to the L.A. Housing Community Investment Dept.(HCIDLA), one out of two renters in Los Angeles resides in a RSO residence, and 60% of renters in L.A. live in an RSO).
         3.) Section 3, 31 (2) 2(f). Remove proposed restriction of home-sharing/operating more than 1 guest room per home.
         4.) Section 2, 31 (c) (2)(g) 7 (a)and(b). Separate "home-sharing" from "hotels, motels, multi-unit housing" when referring to liabilities and fines. Proposed Fines of $1,000 per day for Home-sharing violations is excessive and severe and must be reasonable/affordable to the average stakeholder.
      2. Motion 2:
         The Greater Valley Glen Council opposes the proposed ordinance that would add to the Municipal Code the Establishment of Tree Replacement In-Lieu Fee (CF 16-0461). As proposed it violates CEQA by allowing deferred mitigation. Fees do not cover the lost ecosystem services of removed mature trees. A strong Urban Forestry sustainability plan needs to be in place first to monitor that tree removals are a last resort (and not simply to accommodate an unnecessary driveway remodel), and second to identify sites throughout the city that need trees to create shade and curb heat island effect. While we understand the need to correct the problem of dying boxed saplings delivered to the City tree lot by private developers and residential projects with no room to plant, we want to point out that “in lieu of” fee ordinances have failed and have been abandoned by other cities such as San Francisco. Furthermore the reduced $267 fee to remove a street tree at a residence with 1-4 units will end up costing the City $2,345 per tree to make up the cost to purchase, plant and care for a replacement tree (this calculation according to the $2,612 cost basis presented in the Public Works and Gang Reduction Committee February 7, 2018). We feel it is a much more direct solution to co-ordinate replacement tree deliveries so that planting crews are in place to plant the trees in a more timely way, and follow up with further care such as staking, watering, mulching, and shoot removal. Additional fees should be set and charged for tree removals to cover the real cost of replanting and maintaining the delivered replacement trees. This is a more sustainable approach than to create a fund for which there is no clear process delineated to utilize in-lieu fees to purchase and plant trees, and all the while the City stakeholders suffer the increased heat, utility costs, diminished air quality, aesthetic defacement, and diminished neighborhood value brought about by tree loss. [CIS the same.]
      3. Motion 3:
         The Greater Valley Glen Council approves transmittal of a letter to Kevin James, President of the City of Los Angeles Board of Public Works, requesting that future tree trimming of City trees by the Division of Urban Forestry adhere to the guidelines of the International Society of Arboriculture.
